

# CLEAN VEHICLE CREDITS

## TOOLKIT

This toolkit has resources and quick references to increase awareness about the credits.

## What are the clean vehicle credits?

If you buy a new plug-in electric vehicle or fuel cell vehicle in 2023 or after, you may qualify for a **clean vehicle tax credit**. If you bought a new, qualified plug-in electric vehicle in 2022 or before, you may be eligible for a **clean vehicle tax credit** up to \$7,500.

Beginning January 1, 2023, if you buy a qualified used electric vehicle or fuel cell vehicle from a licensed dealer for \$25,000 or less, you may be eligible for a **used clean vehicle tax credit** (also referred to as a previously owned clean vehicle credit). The credit equals 30% percent of the sale price up to a maximum credit of \$4,000.

Businesses and tax-exempt organizations that buy a qualified commercial clean vehicle may qualify for a **commercial clean vehicle tax credit** of up to \$40,000.

# How can you help? – Posters

## Easy to do

- Place posters – print them out or link to the pdf versions online

### Credit for Previously Owned Clean Vehicles

**previously owned clean vehicles**  
If you are interested in claiming the clean vehicle credit for purchasing a **previously owned clean vehicle** beginning in 2023, a tax credit is available only for qualifying clean vehicles.

- The credit is available to all qualified buyers who are not claimed as a dependent on someone else's tax return.
- The maximum amount of the credit is: Lesser of \$4,000 or 30% of the sales price.
- Qualified buyers cannot claim the credit more than once every three years.
- The credit is allowed if the sale price is less than \$25,000.

**What are the income limits for the credit?**  
You may be eligible for the credit if your modified adjusted gross income\* (MAGI) for the current year or prior year is less than or equal to:

- \$150,000** for married filing jointly or filing as a qualifying surviving spouse or a qualifying widow(er)
- \$112,500** for head of household
- \$75,000** for all other filers

\* Modified adjusted gross income means adjusted gross income increased by any amount excluded from gross income because it was received from a foreign source.

**vehicles**

- The previously owned vehicle has a model year at least 2 years earlier than the calendar year when you buy it. For example, a vehicle purchased in 2023 would need a model year of 2021 or older.
- The previously owned vehicle transfer to the qualifying buyer must be the first transfer to a qualified buyer since August 16, 2022.
- The previously owned vehicle must be purchased from a dealer and weigh less than 14,000 pounds.
- The previously owned vehicle must be a plug-in hybrid electric, or electric vehicle, or a hydrogen fuel cell vehicle.

### Credit for Clean Vehicles

**What is the credit for new clean vehicles?**  
If you are interested in claiming the clean vehicle credit for purchasing a **new** clean vehicle after Aug. 16, 2022, a tax credit is available only for qualifying clean vehicles.

Here is what you should know:

- The maximum amount of the credit is \$7,500 per vehicle purchased that year.
  - The amount of the credit allowed can't exceed the amount of tax you owe.
- The credit is allowed for vehicles with manufacturer's suggested retail price less than or equal to:
  - \$80,000\* for vans, sport utility vehicles, pick-up trucks
  - \$65,000\* for other vehicles

\* Base retail price suggested by the manufacturer, plus the retail price suggested by the manufacturer for each accessory or item of optional equipment attached to the vehicle.

**What are the income limits for the credit?**  
You may be eligible for the credit if your modified adjusted gross income\* (MAGI) for the current year or prior year is less than or equal to:

- \$300,000** for married filing jointly or filing as a qualifying surviving spouse or a qualifying widow(er)
- \$225,000** for head of household
- \$150,000** for all other filers

\* Modified adjusted gross income means adjusted gross income increased by any amount excluded from gross income because it was received from a foreign source.

**What clean vehicles qualify for the credit?**

- Final assembly
  - Final assembly must occur within North America (effective 08/17/2022).
  - To identify the manufacture location for a specific vehicle, please search the vehicle identification number (VIN) of the vehicle on the VIN Decoder website at [www.nhtsa.gov/vin-decoder](http://www.nhtsa.gov/vin-decoder).
- Manufacturer: The vehicle manufacturer must be a Qualified Manufacturer. Visit [FuelEconomy.gov](http://FuelEconomy.gov) for a list of qualified manufacturers.
- Battery: The battery must have at least 7 kWh of capacity with external charging gross vehicle weight rating of less than 14,000 lbs.
- Vehicle type: The vehicle must be a plug-in, hybrid electric, or electric vehicle, or a hydrogen fuel cell vehicle.

### Credit for Commercial Clean Vehicles

**What is the credit for commercial clean vehicles?**  
If you are interested in claiming the commercial clean vehicle credit for purchasing a commercial clean vehicle or vehicles, beginning in 2023, a tax credit is available for each qualifying commercial clean vehicle purchased each year through Dec. 31, 2032.

Here is what you should know:

- The credit is available for businesses and certain tax-exempt entities; tax-exempt entities can receive the credit as an elective payment.
- There is no price limit on the cost of the commercial vehicle.
- No commercial clean vehicle credit will be allowed if a taxpayer already claimed the new clean vehicle credit for the same vehicle.
- The vehicle manufacturer must be a Qualified Manufacturer. A [Qualified Manufacturers list](#) is on IRS.gov.

**What is the amount of the credit?**

- The maximum credit amount is **\$7,500** per vehicle with a gross weight rating of less than 14,000 pounds or **\$40,000** for all other vehicles.
- The credit is limited to the lesser of 15% of the vehicle's cost (30% for vehicles not gasoline or diesel powered) or the incremental cost of the vehicle, as compared to vehicles powered with a gasoline or diesel internal combustion engine.

**What commercial vehicles qualify for the credit?**  
To qualify, a vehicle must be subject to a depreciation allowance, with an exception for vehicles placed in service by a tax-exempt organization and not subject to a lease.

- Vehicle Type: Clean vehicles and mobile machinery
- Battery: Vehicles that have a battery capacity of at least 7 kilowatt hours or 15 kilowatt hours for vehicles with a gross vehicle weight rating of 14,000 pounds or more, or a fuel cell vehicle (hybrid vehicles).
