## **Energy Efficient Home Improvement Credit**

## **Qualified Manufacturers: Registration Guide**

---

# User Guide

This is the first release of Energy Credits Online. Future releases will contain enhanced functionality.

[Register Here](#)

If you run into any difficulty throughout the process, please contact the IRS through **Secure Messaging** using your [IRS Energy Credits Online](#) account.

This guide provides an example of how to register. It is not intended to cover every scenario.

This user guide is meant to help manufacturers of energy efficient home improvement products register for an online Clean Energy Account and submit a Qualified Manufacturer Registration and Agreement application.

1. You must have an **ID.me** account to register for a Clean Energy Account (CEA). The IRS uses **ID.me**, a technology provider, to provide identity verification and sign-in services.
  - If you have an ID.me account, just sign in. Don't create a new ID.me account for your business.
  - If you're a new user, have your photo identification ready. Verify your personal identity – not your business information – with ID.me.
2. You must have a Clean Energy Account (CEA) to register as a Qualified Manufacturer (QM)

Have the following items on hand for registration:

- Business name as listed on Federal tax return.
- Business Employer Identification Number (EIN)

Notes to users:

- The first user to register on behalf of an entity will be assigned as a 'Clean Energy Officer' for the entity.
- Once the first user has created an account for the organization, additional users can be added with approval from the Clean Energy Officer. [Publication 5902, Clean Energy Authorization Permission Management User Guide](#) explains the different roles of each user and will walk you through on how to add additional users.

## Qualified Manufacturers

This user guide provides guidance to Qualified Manufacturers on how to:

- Register and apply to become a Qualified Manufacturer
- Establishing a Qualified Manufacturer Identification (QMID) Code
- Assign or update your eligible products with your QMID

NOTE: Examples are for illustrative purposes only.

Login to **Secure Messaging** using your [IRS Energy Credits Online](#) account for help at any point throughout the process!

---

## **Qualified Manufacturers: Register and apply to become a Qualified Manufacturer**

---

User Guide

## First time users

**Register your business**

Once you reach the Energy Credits Online (ECO) portal, you'll see several options. Click the Qualified Manufacturers link.

## Returning users

**Access your registered business information**

Once you reach the Energy Credits Online (ECO) portal, you'll see several options. Click the Qualified Manufacturers link.

From the qualified manufacturer web page

1. Select [Register your business](#) if this is your first time accessing your business information. OR
2. Select [Access your registered business information](#) if you are returning.

**ID.me** + 

### Create an ID.me account

You are now returning to  
The Internal Revenue Service

The screenshot shows the IRS Clean Energy dashboard. At the top, there's a blue header with the IRS logo and user information: Sarah Lee, Thumbprint Window and Door Mfg. Incorporated, Profile, Help, and Logout. Below the header, a 'Clean Energy' tab is selected. The main content area is titled 'Welcome to IRS Clean Energy' and includes a 'CONNECT WITH US USING SECURE MESSAGING' button. A sub-header states: 'The Inflation Reduction Act (IRA) and the Chips and Science Act (CHIPS Act) offer credits for clean energy and manufacturing investments.' There are four main tiles: 'Clean Energy and Semiconductor Manufacturers', 'Vehicle Manufacturers', 'Vehicle Dealers and Sellers', and 'Energy Efficient Home Improvement Product Manufacturers'. Each tile has a 'GET STARTED' button. The 'Energy Efficient Home Improvement Product Manufacturers' button is highlighted with a red rectangle. A blue overlay note on the right says: 'NOTE: If you do NOT have eligible products to register, do NOT start the process to become a Qualified Manufacturer.' At the bottom, there's a 'Related Resources' section with links for 'Elective Payment Elections', 'Clean Vehicle Credits', 'EEHIC IRC 25C', and 'Other Resources'.

**NOTE:** If you do **NOT** have eligible products to register, do **NOT** start the process to become a Qualified Manufacturer.

From the **Welcome to IRS Clean Energy** Dashboard

1. Select **Get Started** from the **Energy Efficient Home Improvement Product Manufacturers** tile.

- ☒ > 1/2 Lite - All zones

## GEOGRAPHIC ZONES:

Some products have a geographical zone requirement. Be sure to select the appropriate climate zone product when selecting the products you manufacture. You can select more than one zone for your product. Geography is based on each specific product, not your product line as a whole. You may have a single product that qualifies in all geographic zones.

**EXAMPLE:** You make one model of window that qualifies in **all zones**, another model that qualifies in the **northern zone only**, and a third model that qualifies in the **southern zone only**.)

1. Check **All Zones**, **Northern zone only**, and **Southern zone only** in **Eligible Products**.

Select products from a list QM currently manufactures that are eligible for an EEHIC in TY24 and TY25 \*

## EEHIC Qualified Manufacturer

### Qualified Manufacturer ID

Your Qualified Manufacturer ID is a 4-digit unique code. This code, along with other information, will be used by consumers to claim a tax credit on their income tax return.

This code must be accepted before you can be considered as a EEHIC Qualified Manufacturer. If you're not satisfied with the generated code, you can regenerate a new one. **Once you've accepted a code, it cannot be changed.**

Your 4-digit Unique Code    A3G4

ACCEPT    REGENERATE CODE

### Qualification Agreement

Read the terms and guidelines in the EEHIC Qualification Agreement.

[Review my approved Qualified Manufacturer Agreement](#)

### Maintain Product List

View or update the list of products they manufacture that are eligible for EEHIC TY24 and TY25 as appropriate.

**Do not deselect a product until you have filed your Qualified Manufacturer Periodic Report reporting all products manufactured that require the associated product code. Future reports may be rejected if they contain PINs containing the associated product code.**

[Go to Maintain Product List](#)

**NOTE:** You have two options for your Qualified Manufacturer ID. You may click **Accept** and establish your code as provided or you may click **Regenerate Code** to request new codes.

Select **Accept**.

### Maintain Product List

View or update the list of products they manufacture that are eligible for EEHIC TY24 and TY25 as appropriate.

**Do not deselect a product until you have filed your Qualified Manufacturer Periodic Report reporting all products manufactured that require the associated product code. Future reports may be rejected if they contain PINs containing the associated product code.**

[Go to Maintain Product List](#)

From the EEHIC Qualified Manufacturer homepage

1. Click on the **Go to Maintain Product List** link.

The screenshot shows the IRS website's 'Qualified Manufacturer EEHC Eligible Products' page. A modal window titled 'Caution' is displayed in the center, with the text 'Do not remove products from this list until you have completed the registration process. If you do, you may be subject to a civil penalty.' The 'Close' button in the modal is highlighted with a red box. The background page shows sections for 'Manufacturer Information', 'Identification and Licensing', and 'Eligible Products'.

**NOTE:** You need to report products you manufacture that you identified during the registration process on a **Qualified Manufacturer Periodic Report (QMPR)** before you deselect that product from the list of products you manufacture. Reporting a **removed** product on a QMPR will cause your QMPR to be rejected.

From the EEHC Qualified Manufacturer homepage

1. Select **Close**.

Select products from a list QM currently manufactures that are eligible for an EEHIC in TY24 and TY25 \*
