

Home Energy Credits: Apply to be a Qualified Manufacturer

Energy Efficient Home Improvement Credits (EEHIC) enable manufacturers to deliver cost-saving, sustainable energy solutions to their customers.

Manufacturers of energy efficient home improvement products will need to register as a **Qualified Manufacturer** so consumers of their qualifying products can claim eligible annual EEHIC.

STEP 1

Login to your Clean Energy Business Account

- Login to the [IRS Energy Credits Online](#) *(ECO) tool.
- Select **Get Started** on the Energy Efficient Home Improvement Product Manufacturers tile.
- Then select **Apply to be a Qualified Manufacturer**.
- Continue with the registration.

STEP 2

Register eligible products

- Select your eligible EEHIC products and the geographic zone(s) for tax year 2025.
- Upload proof you manufacture qualifying products.
- Submit the EEHIC Qualification Agreement.
- Receive Confirmation.

STEP 3

Establish a QMID

- Return to the Energy Efficient Home Improvement Product Manufacturers tile in the ECO tool.
- Accept the 4-digit unique code that best fits your needs.
- Customers will use this code to claim the EEHIC on their 2025 federal income tax return.

STEP 4

Let your customers know your products are eligible for EEHIC

*See [Publication 6046](#) for detailed instructions.

**If you have problems or issues during the registration process contact the IRS through Secure Messaging.
