## Part III Short Method

TIP

You do not need to file Form 2210 unless you checked a box in Part II on page 1. You may use the short method if:

• You made no estimated tax payments (or your only payments were withheld federal income tax), **or** 

• You paid estimated tax in equal amounts on your due dates.

You must use the regular method (Part IV) instead of the short method if:

- You made any estimated tax payments late,
- You checked box C or D in Part II, or

• You are filing Form 1040NR or 1040NR-EZ and you did not receive wages as an employee subject to U.S. income tax withholding.

**Note:** If any payment was made earlier than the due date, you may use the short method, but using it may cause you to pay a larger penalty than the regular method. If the payment was only a few days early, the difference is likely to be small.
